Dear Mrs. Cohn:

It gives me great pleasure to inform you that you were unanimously elected an Associate Member of the American Numismatic Society at the meeting of the Council which was held yesterday, April 16th. Under separate cover, we are sending you a copy of our latest monograph and a copy of our Proceedings recently issued.

I trust we may have the pleasure of seeing you at the Society's rooms again at no very distant date.

Dear Mrs. Cohn:-

As has been their procedure for several years past, the Medallie Art Company have offered to strike for our collection examples of medals made by them during the past year, provided we can obtain the permission of the artist to have this done. Included in this offer is the Anatole France Medal designed by you. If you do not feel you can authorize this action on the part of the Medallie Art Company, will you either obtain permission from those who are responsible for this medal or send us the name of the individual to whom an application for having this done should be sent.

We shall appreciate your cooperation in this effort to have our collection of medals by American artists as nearly complete as it can be made.

Very cordially yours,

Secretary

Dear Sir:

Mrs. Cohn has handed me your letter of February 26th.

Mrs. Cohn has the exclusive control for the medal which was struck off for her in 1925, but as she was not satisfied with the face of the design she is unwilling to allow the Medallie Art Company to furnish you with an example of it. She is re-designing the face of the medal and intends to have a new medal of similar character struck this year, and if you will apply to her again at the end of the current calendar year I have no doubt but she will give her consent that the Medallie Art Company may furnish you with an example of the revised medal.

Very truly yours,

Dear Mrs. Cohn:

Your card of November 4th has kept me on the lookout for your medal of which you write. As yet, however, it has not reached our hands, and I am merely sending this line to safeguard the possibility of its having disappeared in the mail. If you instructed the Medallie Art Company to send a copy to us, then it is all right, for they might well hold it until they had received an accumulation. Each year they send up specimens of issues that have been made during the previous twelve months.

Very truly yours,

Dear Mrs. Cohn:

Your letter of November 8th has kept me on the  
lookout for your small art object ever since. As yet, however,  
it has not reached my hands, and I am unable to send you  
the information the possibility of its having disappeared  
in the mail. If you indicated the  
the word which he used, then it is all right. The only point  
well - it is better they had received an acknowledgment. And  
that they had a specimen of the work that had been made  
under the previous regime.

Very truly yours,

Secretary

Dear Mrs. Cohn:

Your note is at hand. Of course we want to have a copy of your medal, and I have no hesitation in writing this without having seen it - something which I have promised to do when I am next at the Medallie Art Company. I know there must be great satisfaction to you in having got nearer to what you wanted your medal to be.

With cordial greetings, I am

Dear Mrs. Cohn:

At last we have received the specimen of your youth frame model; the first went astray in the mails. Thank you very much indeed.

I think you are to be congratulated on the result, even though you express yourself as not satisfied with it. The effort seems good to me, and modeling in such low relief is very difficult. I like the style better, but feel that the lines were a bit sharp. The subject of the woman, with her hair by the shoulders and slightly, is not very ideal in the model for our miniature and appreciate your gift.

Very truly yours,

Secretary

Sydney P. Noe, Secretary,  
The American Numismatic Society,

Dear Sir:

Yours of the 29th ultimo, addressed to Mrs. Cohn here, was  
opened by me in her absence and illness.

I think I may be permitted an explanation in reference to the  
crowding of the lettering. There was an error in the Roman Numerals  
as originally designed, and changes were necessary. When the design  
was completed it was apparent that the Roman Numerals were crowded,  
but that the situation could not be remedied except by eliminating  
all of the Roman Numerals and doing the whole work over again. At that  
time the illness from which Mrs. Cohn is now suffering was manifesting  
itself, and she said she did not feel able to do the work all over, and  
therefore left the lettering as it now is. In the circumstances, I  
shall be glad if you will write Mrs. Cohn at Orleans, Cape Cod,  
Massachusetts, a letter similar to the one which you wrote her here,  
omitting the clause "but feel that the dates seem a bit crowded." In  
her present condition such a letter, I am sure, would be quite helpful.

Very truly yours,

MC-L

I think you are to be congratulated on the result, even though you express yourself as not satisfied with it. The portrait seems good to me, and modeling in such low relief is very difficult. Dear Sir:

This is to advise you of Mrs. Cohn's  
passing away on February 1st, and I suggest that  
you strike her name from the list of members of  
your Society.

Dear Mr. Cohn:

This is a very simple expression of my sorrow in learning of the death of your wife. The one or two visits she made to the Museum were all too brief, but they did give me some conception of how great must be your loss, and I beg that you will accept my sincere sympathy.

Sincerely yours,

Secretary
